SUMMARY

MERN stack developer with hands-on experience in building dynamic user-centric web applications. Currently, I work in a professional environment, applying my skills to develop scalable and efficient solutions. Passionate about continuous learning and contributing to meaningful projects that improve user experience and performance.

EDUCATION

Charusat University   Changa, Gujarat
Bacelors of Technology in Computer Engineering;   *Nov. 2020 - May 2024*
CGPA: 9.18

EXPERIENCE

Byteridge   Hyderabad, Telangana
SDE I   *July 2024 - Present*

- Actively contributing to the frontend development of a project using **ReactJS/NextJS**, ensuring an optimized and seamless user experience.
- Performing thorough testing and debugging to enhance application stability and performance.
- Collaborating closely with the development team, participating in code reviews, and refining pull requests for maintainable and high-quality code.
- Implementing and integrating APIs efficiently for dynamic and real-time data interactions.
- Engaging in agile development processes, fostering teamwork, and improving workflows for streamlined project execution.

Byteridge   Hyderabad, Telangana
SDE Intern   *September 2023 - November 2023*

- Contributed significantly to the frontend development of the **Scrum Planning Poker** project using **NextJS**
- Designed project pages using Figma for a user-friendly interface.
- Integrated APIs seamlessly for real-time data retrieval and display.
- Addressed technical debt, enhancing code quality and maintainability.
- Collaborated cross-functionally, contributing to agile development practices and gaining hands-on software development experience.

Agevole Innovation   Surat, Gujarat
Machine Learning Intern   *May 2023 - July 2023*

- Developed a **Plant Disease Detection Model** using TensorFlow and Convolutional Neural Networks (CNN).
- Successfully trained the model to accurately classify plant diseases from images, aiding in early disease detection for improved crop health.
- Utilized **ReactJS** to deploy an interactive website, allowing users to access and benefit from the detection system.
- Gained practical experience in machine learning, CNNs, and web development through a real-world project.

Rk Websoft Technologies Pvt Ltd   Anand, Gujarat
Front-End Intern   *May 2022 - July 2022*

- Contributed to the development of the **Anand Pathology Laboratory** project as a front-end intern, leveraging **AngularJS** to enhance the user experience.
- Designed and implemented interactive forms, ensuring efficient data collection and submission processes.
- Successfully integrated API calls within the AngularJS framework, allowing real-time data retrieval and display.
- Demonstrated proficiency in AngularJS by contributing to the development of dynamic and responsive user interfaces.
- Gained valuable hands-on experience in front-end development, user interface design, and AngularJS utilization during this engaging internship.

Projects

ShopSphere | React, Firebase   **</>** Code   🖥 Live
- Developed a full-fledged e-commerce platform with product listing, cart management, and authentication.
- Implemented responsive design for seamless browsing across devices.

My-Portfolio | ReactJS   **</>** Code   🖥 Live
- Designed and built a personal portfolio website showcasing skills, projects, and achievements.

Formify | ReactJS, Form Hooks   **</>** Code   🖥 Live
- Created a web application focused on form input and validation.
- Used React form hooks for efficient form management and implemented dark mode for enhanced user comfort.

Roof Garden Restaurant | ReactJS, Tailwind CSS   **</>** Code   🖥 Live
- Created a restaurant's website using React and Tailwind CSS, merging design with functionality.

Technical Skills

Operating Systems: Microsoft Windows
Scripting Languages: JavaScript, TypeScript
Programming Languages: Python, C++
Databases: MySQL, MongoDB, PostgreSQL
Web Technologies: HTML, CSS
Frameworks & Libraries: ReactJS, NextJS, NodeJS, ExpressJS, MaterialUI, TailwindCSS
Tools & Technologies: VS Code, Visual Studio, Git, Github, Postman, Netlify, Firebase
Design: Canva, Figma

Interest & Hobbies

Anime | Reading books | Travelling | Listening Podcasts
